

The Federal Communications Commission

Dear The Federal Communications Commission,

As a working man trying to support my family on on one income, while my wife tries to finish college. I think it is unfair that you want me to pay more than I already do. What with this connection fee and that tax, I and other average people like me already take the brunt of the fees and taxes paid in this country why, let me ask you once again WHY should we have this burden thrust upon us? Is it to support big buisness who lines the pockets of lawmakers and fatcats in many positions of power. I think it is a sad state of affairs when in this "GREAT COUNTRY OF OURS" that an average man can not get a fair cut of the profits in our "NATION OF OPPORTUNITY" and then you want to charge us more for basic services it sickens me!

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Dak Robertson
